Touch of first class

Cliff Smith Times-Union, October 28, 1981

When the new 20-cent postal rate goes into effect Sunday, you'll still be able to mail envelopes or small packages weighing up to four ounces first class for the same price as third class.

Equal rates for the first four ounces of either class were introduced when the first-class rate for the first ounce was increased to 18 cents.

But it wasn't widely publicized and most people didn't learn about it until they were told by a post office clerk, Postal Service officials in the Rochester area concede.

If you mark an envelope weighing four ounces or less "third class," don't expect a post office clerk to change the designation to "first class."

"It will be sent out the way you mark it," a post office spokesman says.

First-class mail, usually used for letters or other personal messages, is supposed to receive top priority. The delivery time could be two or three days faster than third-class mail, which generally is used for pamphlets and merchandise.

The Postal Service also is permitted to open third-class mail periodically for spot checks. (Second-class mail generally consists of newspapers and magazines.)

Starting Sunday, first-class (and third-class) rates will be 20 cents for the first ounce; 37 cents for just over an ounce to two ounces; 54 cents for just over two ounces to three ounces, and 71 cents for just over three ounces to four ounces.

Then begins the price divergence between first-class and third-class mail. For first class, you'll pay 88 cents for just over four ounces to five ounces; \$1.05 for just over five ounces to six ounces, etc. For third class, you'll pay 85 cents for just over four ounces to six ounces; 95 cents for just over six ounces to eight ounces, etc.

Canada Post reports proposed postage increases

Canadian postage rates could nearly double as Canada's postal service works to become reasonably self-sufficient next year.

Under the proposed rate schedule announced by Canada Post and Postmaster General Andre Ouellet in late September, domestic first-class mail rates in Canada will jump from 17 cents to 30¢, the basic letter rate to the United States will go from 17¢ to 35¢, and other rates would experience similar increases.

The rate proposal coincides with the Oct. 16 change from Canada Post, a government operation, to Canada Post Corp., a predominantly independent postal authority mandated to pay its own expenses and effectively charge customers the full cost of the services provided.

By reducing or eliminating the government subsidy, Canada postal customers are likely to see costs rise to more realistic levels. The U.S. Postal Service was established in 1971 for similar reasons, but the reduction in federal subsidies has been gradual, with certain subsidies still in effect.

ROPEX '82

Your show is on its way to becoming more special for us all. We are trying to make this show not only great philatelically for Rochester but also great personally for all RPA club members. If you have a suggestion, tell us. If you want to help, we have lots of ways for you to become involved. We need your participation and ideas!

To catch you up on what has already been prepared... ROPEX-82 will be held at the Americana on March 26, 27, and 28, 1982. Please see Audrey Pankratz to sign up for a time and a job at the set-up and take-down activities.

We will be honoring Robert Fulton's successful trips with the Clermont (175 years ago) and the Great Seal of the United States (approved 200 years ago).

The Empire State Postal History Society is sponsoring five levels of awards for ESPHS members. There will also be a WCS award for the best one frame exhibit, along with the JHK award for the most popular exhibit, and several other society sponsored awards. If you want to try your hand at exhibiting, or know of someone who does, please pick up a prospectus from Jim Trenton.

Like anything else, the more you add to this show, the more you will get from it. Please get all you can by giving all the time and effort you can to support your club's show and have a good time in the process!

The rust-brown "C" stamps and envelopes (indictum shown on top) will debut Oct. 11 in Memphis, Tenn., along with an unpreviewed and non-denominated Robert Morris postal card. The designs are graphic creations (from modified "B" items) and should be considered preliminary.

The 13c Flag Over Independence Hall sheet-definitive has undergone a new printing for the post card rate, and may differ in both perforation gauge and marginal markings.

From The President

Since our last Newsletter, RPA has had four club meetings. While we have had three speakers and one auction, to say the least the attendance has been poor. The officers are trying to bring you topics that some - not all - have shown an interest. Specifics on the next four programs reaching to Jan. 28, 1982 are shown elsewhere. Please look over the subject matter and, if you can not attend all meetings, mark your calendars. We would like to see you take an interest in your club.

ROPEX-81 has ended and a fair amount of money (\$728) has been turned over to the club. ROPEX-82 is getting into gear. Nancy Zielinski is the Chairperson and she would appreciate your help. You can volunteer your services by calling her at 647-3391.

A one frame exhibit will be held at the Feb. 11, 1982 meeting. The subject matter concerns a theme related to postmarks on covers. Please be thinking about same and be ready to ask questions at the upcoming meetings on content and format. A plaque will be given to 1st, 2nd & 3rd winners. We hope this will be a lead in to future exhibits and your eventual entry into a ROPEX show.

The Board of Governors is working through an attorney to obtain a federal tax number. The papers have been sent to the concerned federal agency. Upon receipt of the agency's approval and the establishing of a banking account, a financial statement will be prepared and published in the H & T. Also, as soon as the agency's approval of the constitutional additions are made, further amendments will be proposed and sent to the membership for review and approval.

Rochester P.O.

The Philatelic Sales Unit in Rochester will be open during the evening hours from 6:00pm to 7:30pm on the fourth Wednesdays of each month. This is in addition to its regular day time hours. The location of the philatelic window is at the Main Rochester Post Office, General Mail Facility, 1335 Jefferson Road.....

If you have items you would like to advertise in the H & T, you will find in this issue two blank spaces (which you may duplicate in size), you can fill in (TYPED) describing the item or items for sale or trade. Your name and phone number or contact at a club meeting could bring the desired results. Only two advertisements/year/member on first come, first served basis will be tired at this time.

In closing, your club can not prosper without your active participation. We like your dues but we would like to see and hear from you occasionally.

Larry Moriarty

The Crazy Horse definitive in the Great Americans series will be issued sometime in January at the 13¢ post card rate.

(Continued from page 1)

The Canadian change may be more dramatic, as Canada Post Corp. appears headed toward economic self-sufficiency on a tighter schedule.

The increase in Canadian rates will also eliminate one of the major points of criticism leveled against "high" U.S. postal rates. Most critics pointing to Canada as a shining example of low rates, however, may not mention the huge government subsidies, which will soon become a thing of the past.

As postal rate experts predicted, the virtual elimination of Canadian government subsidies is expected to force Canada's rates beyond those of the United States, even when accounting for the monetary exchange rate.

At the exchange rates of early October, the upcoming U.S. 20¢ first-class rate would figure out to less than 24¢ Canadian. The proposed 30¢ Canadian rate would be over 25¢ in U.S. currency.

Thus, if the proposed rates are allowed to take effect as planned Jan. 1, 1982, in Canada, postal customers in that country will be paying more than 25¢ U.S. for domestic mail, and nearly 30¢ U.S. (35¢

Canadian) for mail destined for the United States.

This represents a change in recent policy for Canada, since mail bound for the United States was charged the same as domestic mail (at least in first-class mail). The higher rate to the United States would break that tradition, and may also create a convenient method for justifying the release of commemorative issues in more than one denomination.

No duplication of commemoratives at separate rates is expected, but those issues for which Canada used to include two values (domestic and foreign) could see the added choice of an additional rate to the United States. Under the proposed rates, domestic mail would be priced at 30¢, mail to the United States at 35¢, and other foreign mail (including aerograms) at 60¢ (up from 35¢).

Canada Post customers should bear in mind that these are merely proposed rates, and are subject to revision after two months of public comment (October and November) and legislative action and/or government decision expected in December.
